

Maurice Vincent, MD

PRIMARY CARE PHYSICIAN

I've been a family medicine doctor for over 40 years, and I've taken care of patients at CareMore for more than 20 of those years. I became a doctor because I enjoy helping people and making a difference in their lives. At CareMore, I'm thankful to have the freedom to care for patients in a way that puts their needs first. I work with a kind and skilled team – including my daughter, **Dr. Estelle Vincent**, who is also a family medicine doctor. I'm proud that she chose the same path and shares my commitment to helping others.

Education: University of Montpellier, Faculty of Medicine
Montpellier, France

Residency: Wichita Falls County Hospital
Wichita Falls, Texas

Office Languages: English, French

“ Putting patients first isn't just a saying – it's how I care for people every day. ”
