

Ronald Javin Correa, MD

FAMILY PRACTICE & GERIATRICS

I started working in healthcare in 1983, and I've been with CareMore Health since 1999. I decided to pursue a career in healthcare because there are lots of opportunities for continuous learning. I encourage all patients to see their doctor routinely, so if there is a problem, it can be caught early. In my free time, I enjoy restoring antique automobiles, railroad memorabilia and nickelodeons, such as jukeboxes and band organs.

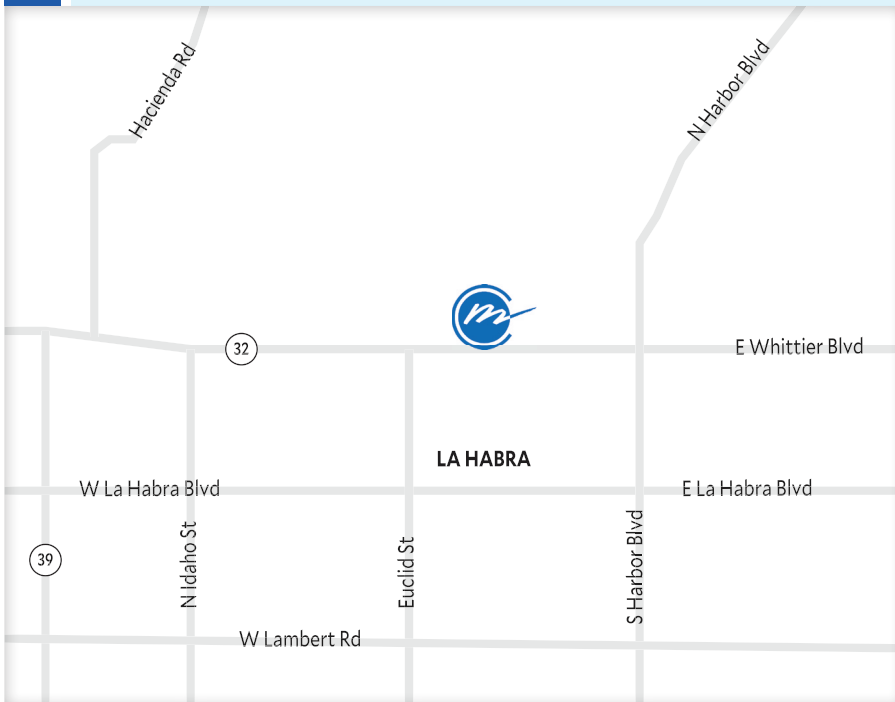

Education: Bachelor's degree from California State University, Los Angeles
Medical degree from University of Minnesota Medical School

Residency: Western Medical Center in Santa Ana, CA

Office Languages: English, Spanish

“ I like CareMore because they allow patients to have quick access to specialists, without the hassles and lengthy approval processes. ”
